

MILITARY DRONES EXPO 2024

MILITARY DRONES EXPO

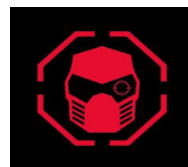

“Designing the Future of World Military with Drone Technology Experts”

Date: 19 & 20 NOV 2024

Venue: Manekshaw Army Center, New Delhi

Sponsors & Partners

The Defense industry has the highest potential of US\$ 3.28B out of the total drone market followed by Logistics at US\$ 2.76B and Enterprise at US\$ 1.48B. The Indian Drone industry is expected to grow owing to driving factors such as the government's regulations including the new Drone Policy PLI scheme to transform India into a worldwide hub for drone manufacturing with international support and a flexible ecosystem. The Indian Defense Drone Market currently has a potential of US\$ 5B by 2029.

WHY EXHIBIT at MILDRONEX24?

Because your next move will change your future forever...

India has been a key driver of the global defense industry in the last 5 years. In line with economic reform, economic diversification is one of the foundations of our futuristic vision, and in turn, the military drone industry sector is one of the strategic sectors with a focus on making military products for the world. The Show's venue has been designed with exhibitors in mind, offering flexible options for indoor spaces, as well as opportunities to showcase products through live demonstrations. Networking features high on Military Drones Expo objectives, and as such, we have designed multiple platforms for our exhibitors so they can fully engage with these attending decision-makers.

At MILDRONEX24, the exhibition forms the central focus of the event and will showcase a diverse set of companies across all domains across land, sea, air, security and space from the military drones industry. MILDRONEX offers a range of exhibiting options that will enable businesses of all types to connect and showcase their unique displays to local, regional, and international decision-makers in a perfectly tailored environment.
